On behalf of the World Beer Awards, we would like to thank you for participating in this year's competition. Your contributions made it a success and we are thrilled to have you part of it!

This year's competition witnessed the largest number of participants from all over the world, and it was truly an exciting journey for our judging teams. They undertook the challenging task of carefully evaluating each beer, seeking out those exceptional brews that truly stood out from the rest.

And it's not over yet...

Here's what's happening next. All products that have been awarded the title of country winner will participate in this stage, where we will first determine the World's Best in each of the 80-plus available styles. Only these 80 finalists will then go head-to-head, competing fiercely for the coveted title of World's Best in each of the 10 categories.

The World's Best in the taste and design competition for the World Beer Awards 2024 will be announced on Thursday 8 August.

Tasting notes and feedback will be made available in the coming weeks.

HOW TO VIEW YOUR RESULTS

To access your results on your online profile, navigate to the left side of the screen and select your results from the menu

You will find two tabs labelled **Awarded** and **Not Awarded**.

Next, select **Show/Hide Winning Entries for the World Beer Awards 2023**.

This will display the products along with their corresponding results.

Please be advised that we are expecting a significant increase in website traffic, which may result in delays. In the event that you are unable to access your online portal, we kindly request you to refer to this document for a complete list of the winners.

For each awarded beer, there are certificates, logo packs, and the option to order promotional materials through us.
